RESUMO

As a Computer Science major with a focus on Python, I have developed a strong skill set in various areas, including programming, database management, web/mobile development, and ML/DL. I am adept at problem-solving and pride myself on being a quick learner. I am eager to find a role where I can apply these skills to create value and grow as part of an innovative technology team.

ACADEMIC TRAINING

Complete High School: 2022 / 2024
Studying Higher Education: 2025 / 2028

MAIN TECHNICAL SKILLS

- Programming languages: Python and Java.
- Frameworks: Django, Flask and FastAPI.
- Databases: MySQL and PostgreSQL.
- ML/DL: Pandas, Numpy, Scipy and Matplotlib.
- Web development: HTML5, CSS3, JavaScript and React.
- Operational Systems: Windows and Linux.
- Others: Git and Github.

LANGUAGES

- Portuguese: Native
- English: Advanced Intermediate
- Spanish: Basic
